

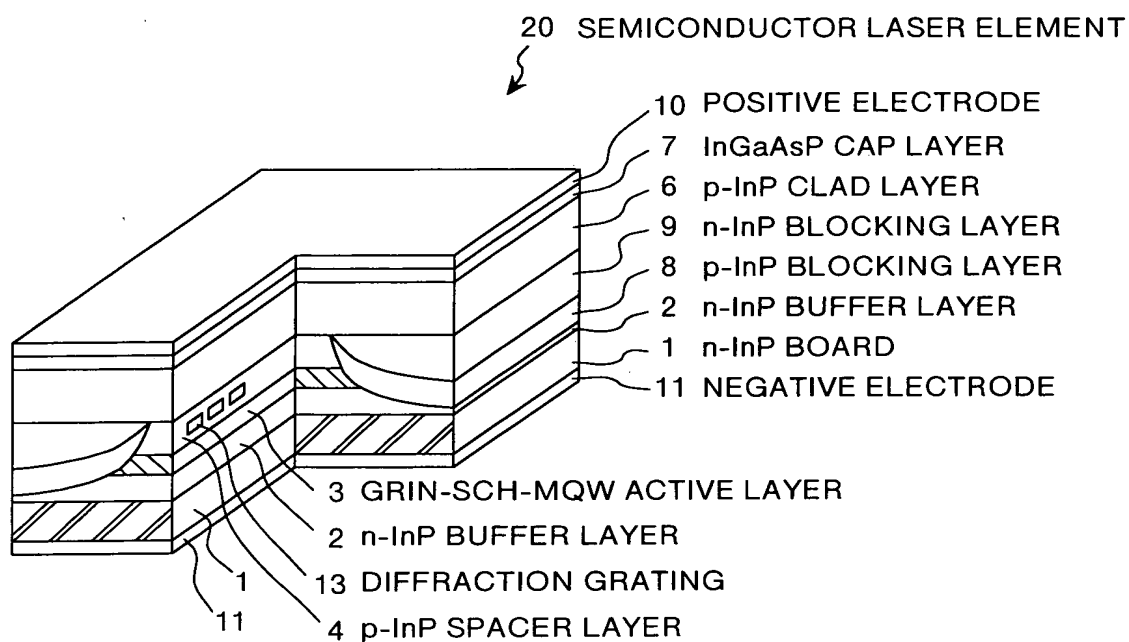

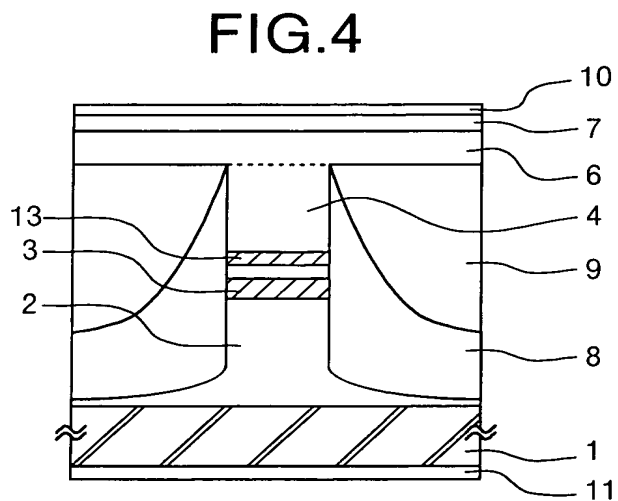

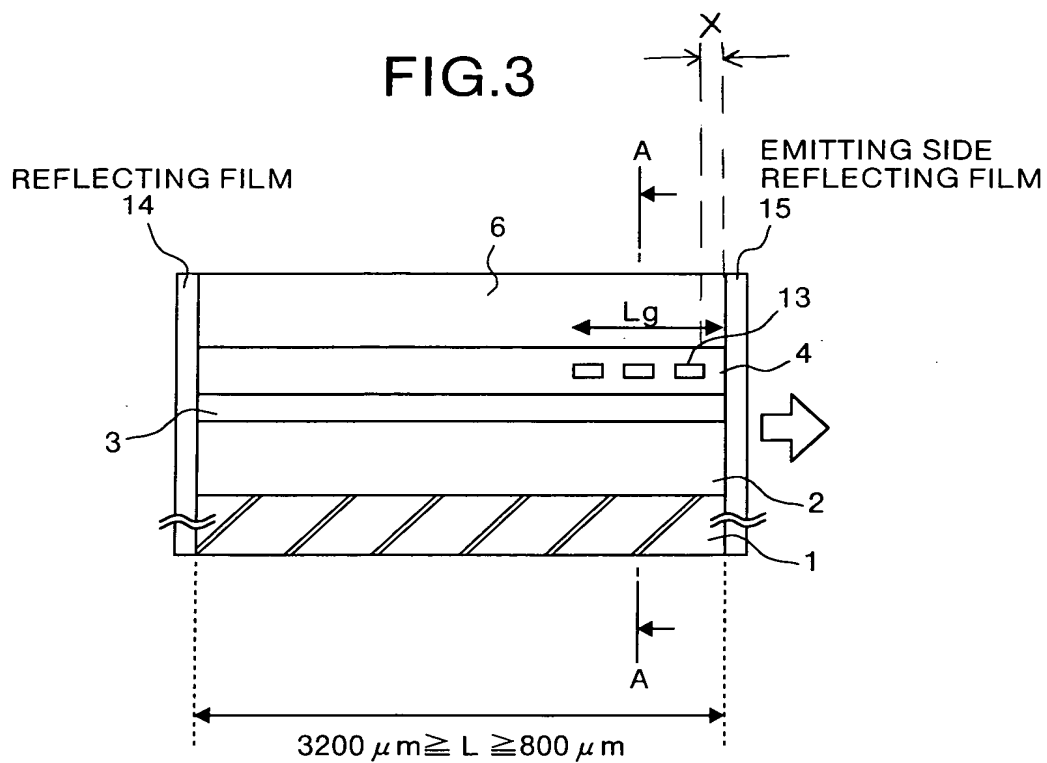

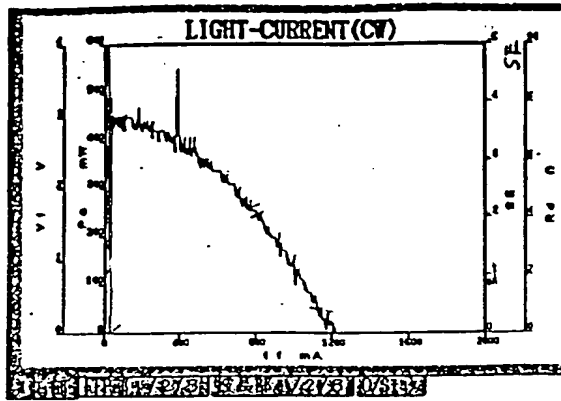

FIG. 1 is a schematic diagram of a circular substrate. The substrate is divided into three horizontal bands labeled LB1, LB2, and LB3. Each band contains three elements labeled G. The elements are arranged in a grid with columns labeled C24, C23, C22, C21, and C11. The elements are also labeled C12, C13, and C14. A dashed line labeled LD is shown. A vertical line labeled A is shown at the top and bottom. A wavy line labeled W is shown on the right side.
